Explanation of each attestation:

a. I have participated sufficiently in this work to take public responsibility for the entire content of this manuscript.

b. I certify that the manuscript represents our original work and that neither this manuscript nor one with substantially similar content under my authorship has been published or is being considered for publication elsewhere. The only exception to this is if that work has been presented or submitted, in part or whole, as a peer-reviewed poster or podium presentation at a conference, it is still eligible for submission to JMCP, and must be disclosed in the cover letter. I also certify that the manuscript will not be submitted for publication elsewhere while it is under review by JMCP, and that the manuscript is considered to be under review by JMCP until it is either published by JMCP or released to the authors by the JMCP editors.

c. I certify that these are original and complete data that have been presented accurately with balanced interpretation that does not serve a commercial purpose, unless disclosed in item 6 below. If requested, I will provide the data or will cooperate fully in obtaining and providing the data on which the manuscript is based for examination by the editors or their assignees.

d. I attest that the study sponsor does or does not (please circle the appropriate option on item d) have authority over the content of this manuscript, and that contractual or legal obligations with the sponsor that allow the sponsor to assert any
influence over this manuscript during its editorial review and publication are disclosed in item 6 of this attestation or in an additional attachment to this attestation form as necessary.

e. For papers with more than 1 author, I agree to serve as the primary correspondent with the JMCP editorial office, to review the edited typescript and proof, and to make decisions regarding release of information in the manuscript to the media, federal agencies, or both; or, if I am the only author, I will be the corresponding author and agree to serve in the roles described above.

f. I have given my final approval of the submitted manuscript. If the manuscript is selected for publication in JMCP, I agree to review promptly the final edited manuscript (page proofs) and authorize it to be printed.

g. I certify that all financial and material support for this research and work has been identified clearly and either disclosed on this form (sections 6, 7, and 8) or described fully in an attachment. I certify that this attestation includes identification of all of my affiliations or financial involvement for the past 3 years and the foreseeable future with any organization or entity that might be perceived by a reader to have a commercial or other interest in or conflict with the subject matter or materials discussed in this manuscript.

h. I certify that the work described in this manuscript complies with the JMCP Policy for Protecting Patient Safety and Privacy. If IRB review was obtained prior to data collection, you must include a statement in your manuscript and make the IRB notification letter of approval (or exemption) available upon request. If compliance with the policy was met in another way, you must include an explanatory statement in your manuscript.

i. I certify that the research described in this manuscript has been conducted in compliance with all applicable federal and state research, privacy, and ethics laws, including, without limitation, state informed consent requirements, U.S. Department of Health and Human Services protection of human subjects regulations, and the Health Insurance Portability and Accountability Act ("HIPAA") and its associated regulations (the "Privacy and Research Laws"). I also certify that no individually identifiable Private Information, as that term is defined at 45 C.F.R. § 46.102, or Protected Health Information ("PHI"), as that term is defined at 42 C.F.R. § 160.103, has been provided to JMCP for publication. I further agree to indemnify and hold harmless JMCP and its affiliates, officers, directors, and agents from and against any claim or demand, damage, cause of action, liability, loss, cost, or expense, including reasonable attorneys’ fees, resulting from, arising out of, or relating to any violation by investigators, authors, or contributors of the Privacy and Research Laws.

j. I attest that all authors meet the International Committee of Medical Journal Editors’ (ICMJE) Recommendations for the Conduct, Reporting, Editing, and Publication of Scholarly Work in Medical Journal, there was no “ghost writer,” and contributors have been appropriately acknowledged as outlined in the JMCP Author Guidelines.

Corresponding author (signature)  Print name   Date signed

3. Copyright Transfer. In consideration of the action of the Academy of Managed Care Pharmacy (AMCP) in reviewing and editing this submission (manuscript, tables, and figures), the author undersigned hereby (a) transfers, assigns, or otherwise conveys all copyright ownership of this intellectual property, including any and all rights incidental thereto, exclusively to AMCP, in the event that such work is published by AMCP, and (b) attests to having the authority to do so.

Corresponding author (signature)  Print name   Date signed

4. Federal Employment. Please complete if applicable: I was an employee of the U.S. federal government when this work was conducted and prepared for publication; therefore, it is not protected by the Copyright Act, and copyright ownership cannot be transferred.

Your signature   Date signed

5. Acknowledgement Statement. The corresponding author has obtained written permission from all individuals named in the Acknowledgement, including all writers and contributors, since readers may infer their endorsement of information or opinions presented in the manuscript. The corresponding author must sign the following statement and initial each of the 3 attestations:

I certify that all persons who have made contributions to the work reported in this manuscript (e.g., writing, revision, literature research, study concept and design, data collection, data analysis, or data interpretation) but who do not fulfill the authorship criteria are named with their specific contributions in an Acknowledgement in the manuscript. Large groups (e.g.,
the nursing staff of a hospital) are acknowledged by group name (e.g., “The authors thank the nursing staff of XYZ Hospital for gathering the data used in this report.”)

I certify that all persons named in the Acknowledgement have provided me with written permission to be named. (Note: It is not necessary to obtain permission from every member of a large group of data collectors.)

I certify that the list of persons named in the Acknowledgement is complete and no other persons unnamed have contributed to the work described in this manuscript, including but not limited to literature search, writing, or other preparation.

Corresponding author signature       Date signed

6. Funding/Support/Sponsor Control. (Please initial the statements that are applicable.)

No outside funding supported this research/study.

Funding/support for this research/study was contributed by the following sources:

and was obtained by the following author(s):

I certify that the funding for this research/study was unrestricted.

I certify that the funding for this research/study was restricted. The following describes the involvement of the sponsor or employee (coauthor) in the preparation, writing, revision, or approval of this manuscript:

7. Disclosures of Financial or Other Relationships. Using the ICMJE Uniform Disclosure Form for Potential Conflicts of Interest form from each author of this manuscript, please copy and paste the disclosure statement for your manuscript in the space below. (available at: http://www.icmje.org/conflicts-of-interest) This statement should also appear on the title page of your manuscript.

8. Are there other relationships or activities that readers could perceive to have influenced, or that give the appearance of potentially influencing, what you wrote in the submitted work?

No other relationships/conditions/circumstances that present a potential conflict of interest.

Yes, the following relationships/conditions/circumstances are present (please explain below):

Please sign below to verify that the items described in Sections 7 and 8 represent a complete list of all financial or other relationships relevant to the submitted work.
